ORANGEBURG COUNTRY CLUB DRESS CODE

General Dress Code: The Orangeburg Country Club expects both men and women to dress in proper golf attire. Men and boys (beginning at age 10) must wear shirts with collars – no tee shirts. Golf shorts (just above the knee) are permitted for men and women. Short shorts, jogging shorts, bike shorts, athletic shorts, coaching shorts, cut off jeans, tank top shirts, halter tops, and swim suits are not permitted in the Clubhouse, on the golf course, or elsewhere on the Club premises. Blue jeans with no visible rips are allowed in the dining room. Exceptions are the appropriate attire for swimming and tennis complexes; however, such attire is restricted to those areas.

Blackwater Grille: General dress code applies. Caps and hats are prohibited for gentlemen.

Clubhouse Bar: Golf and tennis attire are permitted in the Bar. Swimming attire is not allowed in the Bar.

Tennis Attire: Accepted tennis clothing and shoes are required. Prohibited clothing includes shoes not made specifically for wear on tennis courts, blue jeans, ragged sweat suits, cut-off jeans, etc. Shirts without collars are acceptable.

Swim Complex: Appropriate swimming attire is required. Please remember that swim attire cannot be worn other places on the Club premises. It is important to have shirts and shoes to wear elsewhere on the Club premises.

THE GREENS REPORT

TIME FOR GREENS AERATION!!

June brings the summer growing season into full swing. During this month, we will also complete two greens aerations, the first on Monday, June 5 and the second on Tuesday, June 6. After a 15-20 day recovering time, the greens will return to normal.

The spring transition is almost complete. Unfortunately, the spring weather was not ideal for Bermuda to grow. Only the second half of May delivered good growing temperatures. We didn't overseed again this year, so we are ahead of the normal transition schedule.

We did have some Poa Annua break through this spring. This winter weed cannot handle the warm temperatures. We changed our pre-emergent program to prevent resistance. Resistance means the weed will start to fight against the efficacy of the chemistry. If we use the same chemistry year after year, that chemistry may eventually

LAWN AERATION

not work anymore. The amount of rain we received in December, January, and February also broke down the pre-emergent faster than expected. We will continue to look for improvements in our pre-emergent program.

If you ever have any questions or concerns about the golf course or grass in general, please ask.

See you on the course!

Greens Superintendent
